

EIGHTEENTH ANNUAL MEETING

Laser & Aesthetic Skin Therapy: What's the Truth?

OPTIMIZED FOR REMOTE LEARNING

- Interactive sessions
- Instructive clinical cases with audience-response questions, all taught by renowned experts
- Recordings of all live-streamed sessions are made available for immediate viewing online

THIS PROGRAM PROVIDES EDUCATION FOR PHYSICIANS INCLUDING DERMATOLOGISTS, PLASTIC SURGEONS, FACIAL PLASTICS AND OPHTHALMOLOGISTS, WHO CAN RELY ON THIS PROGRAM FOR THE LATEST ADVANCES AND TECHNIQUES IN LASER AND AESTHETIC SKIN THERAPY

OCTOBER 14-15, 2023 LIVE-STREAM

More than 40 interactive lectures, live patient assessments and demonstrations, and question-and-answer sessions led by world-renowned experts. Topics include:

- Laser safety
- Pigmented lesions, rosacea, rhytides
- Tattoo removal
- Hair removal and transplantation
- Ablative and non-ablative fractional resurfacing
- Tissue tightening
- Lasers and ethnic skin
- Melasma
- Treatment of scars
- Acne and photodynamic therapy
- Non-invasive fat removal
- PRP treatments
- Thread lifts
- Complications and legal issues in aesthetics
- Ultrasound for fillers
- Social media and marketing tips
- Botulinum toxins and soft tissue fillers

NEW! Open Discussion

Join us for two *Ask Me Anything* sessions where we address, without any restrictions, your pressing questions about the merits of lasers, light sources, energy-based devices and injectables. CME credits are not available for these sessions.

EARN UP TO:

15.50 AMA PRA Category 1 Credits™
15.50 ABIM MOC Points
3.00 Risk Management Credits

Course Overview

Practical Information That You Can Use Now

Staying current with the rapid advances in laser and aesthetic skin therapy is an increasingly important challenge for physicians. Our patients' demand for such services has resulted in the need to be better educated and trained in safe and effective practices. At present, few non-industry-sponsored meetings exist for those who practice laser and aesthetic skin therapies. This highly rated course will emphasize new techniques and technologies, along with clinical endpoints and laser safety, while also critically evaluating current treatment practices—all free of commercial exhibits from industry.

You will leave this course with an understanding of new laser treatment paradigms and emerging technologies, and get a glimpse into the future of this cutting-edge field with exciting talks given by world-renowned experts. This will be a critical, well-informed, clinically relevant course that highlights proper patient evaluation and aesthetic techniques.

HIGHEST-RATED CME

This program has sold out in previous years due to limited seating, but the new virtual platform provides the opportunity for everyone to attend, as it eliminates the need to travel.

This program is offered via live-streaming. All content will be available on demand for convenient access until November 30, 2023.

The following problems and techniques will be addressed:

- Aging skin
- Vascular lesions and rosacea
- Wrinkles
- Tattoos and pigmented lesions
- Acne and photodynamic therapy
- Laser hair stimulation
- Basal cell carcinoma
- Non-invasive fat removal
- Non-ablative fractional resurfacing
- Ablative fractional resurfacing
- Botulinum toxins
- Chemical peels
- Cosmeceuticals
- Soft tissue fillers
- Hair removal and transplantation
- Lasers and ethnic skin
- Complications and legal issues in aesthetics
- Treatment of scars
- **OPEN DISCUSSION**
Ask Me Anything: The Merits of Lasers, Light Sources, Energy-Based Devices and Injectables. These sessions allow us to freely address your pressing questions without any restrictions. CME credits are not available.

WHO SHOULD ATTEND?

- Dermatologists
- Plastic surgeons
- Ophthalmologists
- Facial plastics
- Physicians who practice or have an interest in laser and aesthetic skin therapies

Learning Objectives

At the end of this course, you will be able to:

- Identify safe practices of laser surgery therapy and its role in clinical practice.
- Evaluate potential complications and mistakes when using lasers for aesthetic procedures.
- Outline appropriate treatment modalities and duration of action required for laser and dermal filler injections that minimize complications and deliver optimal patient outcomes.
- Assess the risks and benefits involved in performing dermal filler injections.
- Analyze controversies in the field of laser surgery and aesthetic skin therapy.
- Summarize new and emerging technologies for laser surgery and aesthetic skin therapy treatment.

Registration

Laser & Aesthetic Skin Therapy: What's the Truth?

	REGISTER ON OR BEFORE SEPT. 1, 2023	REGISTER AFTER SEPT. 1, 2023
Live-Stream Program	\$750	\$850

Fees are shown in USD. All sessions will be recorded as they are live-streamed and made available for immediate viewing, at your convenience, through November 30, 2023.

General Information

PAYMENT, CONFIRMATION AND REFUND POLICY

You may register by credit card (Visa, MasterCard or American Express) using Harvard Medical School's secure online registration system. A processing fee of \$10 (USD) will be assessed per transaction. Upon receipt of your paid registration, an email confirmation from the HMS-GCE office will be sent to you. **Be sure to include an email address that you check frequently. Your email address is used for critical information, including registration confirmation, evaluation and certificate.** Refunds, less an administrative fee of \$75, will be issued for all cancellations received two weeks before the start of the course. Refund requests must be received by email. No refunds will be issued should cancellation occur less than two weeks before. "No shows" are subject to the full course fee, and no refunds will be issued once the conference has started.

INQUIRIES

By phone at 617-384-8600, Monday-Friday, 9 AM to 4 PM (ET), or by email at: ceprograms@hms.harvard.edu.

ACCREDITATION

In support of improving patient care, Harvard Medical School is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE) and the American Nurses Credentialing Center (ANCC) to provide continuing education for the healthcare team.

The Harvard Medical School designates this live activity for a maximum of 15.50 *AMA PRA Category 1 Credits*[™]. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

ABIM MAINTENANCE OF CERTIFICATION STATEMENT

Successful completion of this CME activity, which includes participation in the evaluation component, enables the participant to earn up to 15.50 Medical Knowledge MOC points in the American Board of Internal Medicine's (ABIM) Maintenance of Certification (MOC) program. Participants will earn MOC points equivalent to the amount of CME credits claimed for the activity. It is the CME activity provider's responsibility to submit participant completion information to ACCME for the purpose of granting ABIM MOC points.

CANADIAN ACCREDITATION

The Royal College of Physicians and Surgeons of Canada recognizes conferences and workshops held outside of Canada that are developed by a university, academy, hospital, specialty society or college as accredited group learning activities.

EUROPEAN ACCREDITATION

The American Medical Association (AMA) has an agreement of mutual recognition of continuing medical education (CME) credit with the European Union of Medical Specialties (UEMS). Additional information regarding this agreement may be found here: ama-assn.org/education/ama-pra-credit-system/agreement-european-union-medical-specialties-uems

RISK MANAGEMENT

This activity meets the criteria of the Massachusetts Board of Registration in Medicine for 3.00 credits of Risk Management Study. Please check your individual state licensing board requirements before claiming risk management credit(s).

DISCLOSURE POLICY

Harvard Medical School (HMS) adheres to all ACCME Accreditation Criteria and Policies. It is HMS's policy that those who have influenced the content of a CME activity (e.g., planners, faculty, authors, reviewers and others) disclose all relevant financial relationships with commercial entities so that HMS may identify and resolve any conflicts of interest prior to the activity. These disclosures will be provided in the activity materials along with disclosure of any commercial support received for the activity. Additionally, faculty members have been instructed to disclose any limitations of data and unlabeled or investigational uses of products during their presentations.

DISCLAIMER

CME activities accredited by Harvard Medical School are offered solely for educational purposes and do not constitute any form of certification of competency. Practitioners should always consult additional sources of information and exercise their best professional judgment before making clinical decisions of any kind.

WORKSHOP ON SOFT TISSUE FILLERS AND BOTULINUM TOXINS

This intensive and highly interactive workshop provides a comprehensive overview of cutting-edge techniques for neurotoxin and soft tissue fillers. Our expert faculty will review up-to-date techniques and recent advances for anatomy-guided neurotoxin injections. An emphasis will be placed on evaluating and addressing facial aging in the upper, middle, and lower third of the face with video demonstrations. The importance of recognizing and treating complications, including the utilization of ultrasound for the management of vascular occlusions, will be highlighted. You will walk away with improved comfort and confidence to meet the aesthetic demands of your patients safely and effectively.

This course will emphasize new techniques and technologies while also critically evaluating current treatment practices—all free of commercial exhibits from industry.

LIVE-STREAMING EDUCATION FOR YOUR CONVENIENCE

All sessions will be live-streamed and include real-time audience-response questions, live demonstrations, and interactive Q&A and discussion sessions with clinical experts.

Recordings of all live-streamed sessions are made available for immediate viewing online, at your convenience, through November 30, 2023.

Why You Should Attend

Practitioners from around the world attend this unique course to ensure they are current with state-of-the-art clinical practices and skills, including:

- Optimizing approaches for comprehensive rejuvenation
- Understanding the evolving concepts and treatment of scars
- Improving outcomes for site-specific rejuvenation
- Practicing laser safety for patient and provider
- Individualizing multifaceted approaches to integrating use of energy-based devices and injectables
- Understanding device-based treatment of fat and cellulite, as well as its complications
- Navigating complications and legal issues
